

ZATCA Phase 2: Invoice Notes Mapping Guide

Compliance Reference: ZATCA-ER-2024-V2
Document Date: 10/5/2026

1. Document Type Identifiers

Document Type	UBL Code	Description	ZATCA Compliance Note
Invoice	388	Standard/Simplified Tax Invoice	Default invoice type
Credit Note	381	Reversal/Adjustment (Return)	Mandatory BillingReference
Debit Note	383	Addition/Adjustment (Charge)	Mandatory BillingReference

2. Mandatory Field Mapping (Credit/Debit Notes)

ERP Field	UBL Element	Sample Value	Requirement
originalInvoiceId	cac:BillingReference/cac:InvoiceDocumentReference/cbc:ID	INV-2023-001	Mandatory for 381/383
originalIssueDate	cac:BillingReference/cac:InvoiceDocumentReference/cbc:IssueDate	2023-10-01	Reference to original invoice
reasonForNote	cbc:Note (InstructionNote)	Customer Return	Required for all adjustments
documentUUID	cbc:UUID	550e8400-e29b-41d4-a716...	Unique for every note
issueDate	cbc:IssueDate	2023-11-05	KSA Date (UTC+3)
issueTime	cbc:IssueTime	14:30:00	KSA Time (UTC+3)

3. Monetary Logic & Sign Consistency

- ZATCA Rule BR-KSA-XX: All line item quantities and prices MUST be positive values.
- Reversal Logic: The system identifies a "Reduction" via the 381 (Credit Note) code.
- Mixed Signs: ERPs should NOT mix positive and negative signs in the same document.
- Rounding: All monetary fields must be strictly 2 decimal places (Halalas).

4. Line Item Structure (InvoiceLine)

Field	UBL Path	Data Type	Note
-------	----------	-----------	------

Field	UBL Path	Data Type	Note
Quantity	cbc:InvoicedQuantity	Decimal	Must be absolute value
Unit Price	cac:Price/cbc:PriceAmount	Amount	Net price after line discount
VAT Rate	cac:TaxCategory/cbc:Percent	Percentage	Standard (15%), Zero (0%), etc.
VAT Amount	cac:TaxTotal/cbc:TaxAmount	Amount	Calculated per line
Line Total	cbc:LineExtensionAmount	Amount	Qty * UnitPrice
